

Outbreak Management Plan

Reviewed: 31/8/21

Aim:	This outbreak management plan will outline how we will operate to help manage a COVID-19 outbreak within our setting or local area. This includes how we will ensure every child receives the quality of care to which they are normally entitled. This plan will outline the roles and responsibilities of those involved in managing an outbreak.		
Guidelines/related documents:	<ul style="list-style-type: none"> • <u>Contingency framework: education and childcare settings</u> • <u>Actions for early years and childcare providers during the COVID-19 pandemic</u> • <u>COVID-19: Actions for out-of-school settings</u> 		
Completed by:		Date:

Minimising infection and prevention

The main methods of preventing infection are ensuring good hygiene with the setting, maintaining cleaning regimes, keeping the premises well ventilated and following the guidance on testing, self-isolation and managing confirmed cases of COVID-19. The Hideaway Forest school has in place a COVID-19 risk assessment detailing these measures to prevent the transmission of COVID-19 within our setting.

The Hideaway Forest school has in place a vaccine policy which gives details on how we will encourage our staff team to get the vaccination in order to protect themselves and others at work.

Responding to an outbreak

If we have several confirmed cases within 14 days, we may have an outbreak.

In the event of a possible outbreak, we may call the dedicated advice service DfE helpline on 0800 046 8687 and select option 1 for advice on the action to take in response to a positive case. They or we shall escalate the issue to our local health protection team (South West Health Protection team) who may advise if any additional actions are required, such as implementing elements of our outbreak management plan detailed below.

Bristol City Council and our local health protection team may recommend measures for individual education and childcare settings – or a small cluster of settings – as part of their outbreak management responsibilities. Where there is a need to address more widespread issues across an area, Government may issue specific guidelines for us to follow.

Contacts when responding to an outbreak	<ul style="list-style-type: none"> • DfE helpline on 0800 046 8687 and select option 1 • The South West Health Protection team on 0300 303 8162 or swhpt@phe.gov.uk
Name and role of person liaising with the local health protection team:	
Reporting a positive case (Childcare and education settings must report a suspected/confirmed case of COVID-19 to the BCC dedicated education email. Ofsted registered settings must also inform Ofsted of any suspected/confirmed cases)	<ul style="list-style-type: none"> • Email: education.covid19reporting@bristol.gov.uk • Ofsted must be notified of any cases within our setting within 14 days: Tell Ofsted if you have a COVID-19 incident at your childcare business
Name and role of person reporting: Vicki Paton	
Measures to implement in the event of an outbreak	
Asymptomatic testing	<p>We will continue to encourage staff to test regularly. Lateral flow kits can be collected from our store or collected from your local pharmacy.</p> <p>Staff will be encouraged to undertake twice weekly home tests whenever they are on site.</p>
Confirmatory polymerase chain reaction (PCR) tests	<p>Staff (and children where applicable) with a positive rapid lateral flow test result should self-isolate in line with COVID-19: guidance for households with possible coronavirus infection. They will also need to get a free PCR test to check if they have COVID-19. While awaiting the PCR result, the individual should continue to self-isolate.</p>
Self-Isolation	<p>Our local health protection could advise that a large number of children (including staff) need to self-isolate at home.</p> <p>In order to support Test and Trace we will keep records of close contact that has occurred for 21 days.</p>
Face coverings	<p>In the event of an outbreak it may be necessary for face coverings to be worn in communal areas for staff (reasonable exemptions will apply).</p>

	<p>We may also implement the requirement for parents and carers to wear face coverings during drop off, pickups and visits to the setting (if visits are permitted).</p>
<p>Shielding</p>	<p>Shielding is currently paused and can only be reintroduced by national government.</p> <p>Where we have staff that are at high risk of illness from coronavirus (COVID-19) we will discuss with them any additional precautions that can be implemented.</p>
<p>Who can visit the setting</p>	<p>During an outbreak, we may implement restrictions on who can visit. We may restrict non-essential visitors to the setting. Essential visitors will be asked to follow any measures within our COVID-19 risk assessment as well as wear a face covering (reasonable exemptions will apply).</p> <p>Parents and carers may need to drop off and collect their child at the door. Show-arounds will take place only of outside space.</p>
<p>Groups/bubbles</p>	<p>In the event of an outbreak it may be necessary to introduce consistent groups/bubbles in order to reduce mixing between groups.</p> <p>Children will be placed in school bubbles (maximum of 12 children and one adult) and where possible year group bubbles within the school bubble. These bubbles will remain in place for 10 days after last positive case has been reported.</p>
<p>Prioritising attendance of children/attendance restrictions</p>	<p>In the event of an outbreak we may need to prioritise who can attend the setting to stop the spread of the virus.</p> <p>As an out-of-school setting delivering wraparound childcare, priority will be given to vulnerable children and young people will be allowed to attend. For all other children, parents and carers will only be allowed to use the setting for a limited set of essential purposes such as allowing them seek work, attend a medical appointment, or undertake education and training.</p> <p>The advice outlined above could be subject to change. Further advice will be provided should this be the case.</p> <p>Staying in touch with parents or carers whose child is at home</p> <p>In the event that we have to implement attendance restrictions we shall keep in contact with children not attending and signpost</p>

	<p>families to access remote play and learning activities where possible through our social media pages.</p> <p>Attendance restrictions will be considered as a last resort.</p>
Cleaning	<p>Our COVID-19 risk assessment sets out the cleaning procedure when a child or adult has tested positive.</p>
Safeguarding	
Safeguarding	<p>Staff/key workers will identify and support any vulnerable children, parents and carers and signpost them to the appropriate local services in Bristol. We will work in partnership with other professionals involved to put in place a risk assessment when a vulnerable child is not able to attend the setting.</p>
Support for children and families	<p>Vulnerable children and families will be supported during an outbreak if they are unable to attend the setting due to closure or self-isolation. Together with schools we will sign post relevant activities, food banks and other supportive agencies.</p>
DSL arrangements	<p>We will take the appropriate steps to ensure that the DSL is contactable for staff, for example by telephone or email. In the event the DSL is self-isolating we will deputise the responsibilities to the deputy designated safeguarding lead to cover the role.</p>
Support for staff and professionals	<ul style="list-style-type: none"> • Samaritans (essential/frontline staff support): Talk to us on the phone, whatever you're going through, call us free any time, from any phone, on 116 123. https://www.samaritans.org/how-we-can-help/contact-samaritan/talk-us-phone/ • Wellbeing support by text for key workers: Text 'SHOUT' to 85258 https://giveusashout.org/
Informing parents of outbreak arrangements	
Arrangements for informing parents and carers of an outbreak at the setting.	<p>Parents and carers will be informed of an outbreak at our setting after guidance and recommended arrangements from DfE have been received.</p> <ul style="list-style-type: none"> - <i>We will contact all families who have been in contact with with anyone who has tested positive for coronavirus firstly by email and followed up by a phone call where information</i>

from the local health protection team will be shared.

- *The local health protection team may recommend that a large number of children self-isolate at home.*
- *The local health protection team may also recommend the testing of any children/staff/parents who have been in close contact with anyone who has tested positive for coronavirus.*
